

WORLD TRADING 23

WWW.WORLDTRADING23.COM

World Trading 23 is proud to introduce to you the brand new Remote Control Product line. In 2008, we began the process of recreating our product line and introducing our World Tech Toy line of RC Vehicles. Now 3 years later World Trading has expanded its World Tech Toy brand to include the most popular, innovative and durable RC Toys available. World Trading 23 prides itself in providing the hottest new products and best prices available. An example of this is the brand new line of 3.5 Channel GYRO Helicopters. Where most manufactures are still selling technology that is 5 years old, World Trading 23 is offering the newest most advanced Technology at competitive prices. World Trading 23 has done intensive research in the Remote Control Toy Industry and has produced the most popular RC Toy Line available. Our mission is to provide the hottest selling toys available at the most affordable prices. The products this catalogue showcases are only a fraction of what World Trading 23 offers. Please contact us for more details on our full product line.

We thank you for your continued support and together we will make 2012 the most successful year ever.
